

Part No. T-90 DIP Extractor Tool

FEATURES:

- An extremely handy, economical tool for removing ICs from DIP sockets.
- Reduces the risk of pin damage associated with stubborn IC removal.

ORDERING INFORMATION

Specify Part No. T-90
when ordering

Note: Aries specializes in custom design and production. In addition to the standard products shown on this page, special materials, platings, sizes, and configurations can be furnished, depending on quantities. Aries reserves the right to change product specifications without notice.

Part No. T-516AS DIP-R-SIZER™ Tool

FEATURES:

- The DIP-R-SIZER™ tool straightens DIP IC legs on .300 [7.62] or .600 [15.24] centers with one easy squeeze.
- Place .300 [7.62] center ICs in one side of tool, .600 [15.24] center ICs in the other and just squeeze the handles together.
- Brings leads into tolerance - .320 [8.12] or .620 [15.74].
